"David Foster Wallace meets Gabriel Garcia Marquez" in this novel set in a dystopian Los Angeles from a National Book Award finalist (Publishers Weekly). Irreverently juggling magical realism, film noir, hip hop, and chicanismo, *Tropic of Orange* takes place in a Los Angeles where the homeless, gangsters, infant organ entrepreneurs, and Hollywood collide on a stretch of the Harbor Freeway. Hemmed in by wildfires, it's a symphony conducted from an overpass, grandiose, comic, and as diverse as the city itself—from an author who has received the California Book Award and the Association for Asian American Studies Book Award, among other literary honors. "Fiercely satirical . . . Yamashita presents [an] intricate plot with mordant wit." —The New York Times Book Review "A stunner . . . An exquisite mystery novel. But this is a novel of dystopia and apocalypse; the mystery concerns the tragic flaws of human nature." —Library Journal (starred review) "Brilliant . . . An ingenious interpretation of social woes." —Booklist (starred review)

An apocalypse of race, class, and culture, fanned by the media and the harsh L.A. sun.

Gabriel, a news reporter in L.A., follows leads in which seemingly unrelated events mysteriously unite as the homeless take up residence in abandoned Mercedes, lowriders, and Cads, and an aged Asian American sansei conducts symphonies from a freeway overpass

This thesis explores two major concepts: globalization and diaspora and their impact on the literary representation of women in Jhumpa Lahiri's collection of short stories *The Interpreter of Maladies* and Karen Tei Yamashita's novel *Tropic of Orange*. In the first chapter, using Vijay Mishra's theory on the

Literature of the Indian Diaspora: Theorizing the Diasporic Imaginary, the thesis examines the diasporic state of Mrs. Sen through Mishra's notion of "impossible mourning". I juxtapose Mrs. Sen's character to two other female characters to argue that mobility and crossing borders do not affect all women equally, especially if they come from different social class and caste backgrounds. In addition, I compare Mrs. Sen's diasporic condition to her husband's to contend that the impact of immigration is more beneficial to him than her. This thesis, hence, rethinks some of the reasons why people migrate across the world and its various impacts on individuals, especially women whose displacement often curtails rather than expands their mobility, freedom and independence. In the second chapter, therefore, I use Chandra Talpade Mohanty's *Feminism without Borders* to highlight the difference between Western women and so-called Third World women. Furthermore, using Mohanty's essay "'Under Western Eyes' Revisited," which condemns the detrimental effects of capitalism and globalization and promotes an anti-capitalist and anti-global project based on solidarity, I study the characterization of Emi and Rafaela, two central characters of Yamashita's novel, within the context of globalization and its deviant operations. Referring to the criminal and criminalizing operative modes of global capitalism, including organ and sex trafficking, deviant globalization is a critical concept in this thesis through which I read Yamashita's novel and its female characters' complicity with and resistance to global capitalism.

Yamashita "blends the . . . surrealism of Garcia Marquez, bizarre science fiction . . . à la Stanislaw Lem, and a gift for satirizing . . . that recalls Heller of *Catch-22*" (Publishers Weekly). This freewheeling black comedy features a bizarre cast of characters, including a Japanese man with a ball floating six inches in front of his head, an American CEO with three arms, and a Brazilian peasant who discovers the art of healing by tickling one's earlobe with a feather. By the end of this hilarious tale, they each have risen to the heights of wealth and fame, before arriving at disasters—both personal and ecological—that destroy the rain forest and all birds of Brazil. "Fluid and poetic as well as terrifying." —New York Times Book Review "Dazzling . . . A seamless mixture of magic realism, satire and futuristic fiction." —San Francisco Chronicle "Impressive . . . A flight of fancy through a dreamlike Brazil." —Village Voice "Surreal and misty, sweeping from one high-voltage scene to another." —LA Weekly "Amuses and frightens at the same time." —Newsday "Incisive and funny, this book yanks our chains and makes us see the absurdity that rules our world." —Booklist (starred review) "Expansive and ambitious . . . Incredible and complicated." —Library Journal

An "immensely entertaining" historical novel about Japanese immigrants and their struggle to make a home in a Brazilian rainforest (Newsday). In 1925, a band of Japanese immigrants arrive in Brazil to carve a utopia out of the jungle. Yamashita conjures "an intricate and fascinating epoch" (San Diego Review) where the dream of creating a new world, the cost of idealism, the symbiotic tie between a people and the land they settle, and the changes demanded by a new generation all collide in a "splendid multi-generational novel . . . rich in history and character" (San Francisco Chronicle). "Warm, compassionate, engaging, and thought-provoking." —The Washington Post "Yamashita's heightened sense of passion and absurdity, and respect for inevitability and personality, infuse this engrossing multigenerational immigrant saga with energy, affection, and humor." —Booklist "Poignant and remarkable." —Philadelphia Inquirer "With a subtle ominousness, Yamashita sets up her hopeful, prideful characters—and, in the process, the entire genre of pioneer lit—for a fall." —Village Voice "Full of sad and poignant scenes and some hilarious ones, too." —Star Tribune "Historically informative and emotionally complex." —Bloomsbury Review "Unique and entertaining." —International Examiner "Particularly insightful." —Library Journal "Informative and timely." —Kirkus Reviews

In these buoyant and inventive stories, Karen Tei Yamashita transfers classic tales across boundaries and questions what an inheritance—familial, cultural, emotional, artistic—really means. In a California of the sixties and seventies, characters examine the contents of deceased relatives' freezers, tape-record high school locker-room chatter, or collect a community's gossip while cleaning the teeth of its inhabitants. Mr. Darcy is the captain of the football team, Mansfield Park materializes in a suburb of L.A., bake sales replace ballroom dances, and station wagons, not horse-drawn carriages, are the preferred mode of transit. The stories of traversing class, race, and gender leap into our modern world with and humor.

Karen Tei Yamashita's novels, essays, and performance scripts have garnered considerable praise from scholars and reviewers, and are taught not only in the United States but in at least half a dozen countries in Asia, South America, and Europe. Her work has been written about in numerous disciplines in the humanities and social sciences. *Karen Tei Yamashita: Fictions of Magic and Memory* is the first anthology given over to Yamashita's writing. It contains newly commissioned essays by established, international scholars; a recent interview with the author; a semiautobiographical keynote address delivered at an international conference that ruminates on her Japanese American heritage; and a full bibliography. The essays offer fresh and in-depth readings of the magic realist canvas of *Through the Arc of the Rain Forest* (1990); the Japanese emigrant portraiture of *Brazil-Marú* (1992); Los Angeles as rambunctious geopolitical and transnational fulcrum of the Americas in *Tropic of Orange* (1997); the fraught relationship of Japanese and Brazilian heritage and labor in *Circle K Cycles* (2001); Asian American history and politics of the 1960s in *I Hotel* (2010); and *Anime Wong* (2014), a gallery of performativity illustrating the contested and inextricable nature of East and West. This essay-collection explores Yamashita's use of the fantastical, the play of emerging transnational ethnicity, and the narrative tactics of reflexivity and bricolage in storytelling located on a continuum of the unique and the communal, of the past and the present, and that are mapped in various spatial and virtual realities.

Giant foam rubber sushi and cyborg kungfu fighters populate performances that reflect questions of gender, identity, orientalism, and racial politics.

"I Hotel" is the third novella of I Hotel, a National Book Award finalist and epic of America's struggle for civil rights as it played out in San Francisco's Chinatown. Yamashita's cast of students, laborers, artists, revolutionaries, and provocateurs make their way through the history of the day, caught in riptides of politics and passion, clashing ideologies and personal turmoil.
