By several measures, insurance for you, your family, your home, and your car continues to rise at the fastest rate in our history. In 2005 (the latest year data are available), total national health expenditures rose 7.9 percent - more than three times the rate of inflation. Nearly 50 million Americans are uninsured for healthcare. According to Insurance Information Institute projections, the average annual expenditure for auto insurance in 2006 was \$851. Millions of drivers have no auto insurance. The average expenditure for homeowners insurance was \$729, according to a February 2007 report by the National Association of Insurance Commissioners (NAIC). Insurance takes a huge bite out of the average American's monthly budget, and as stated above, many Americans simply forgo insurance because they consider it out of reach. Shopping for insurance requires more effort than many people want to devote to it. They simply grab the first price they come across or accept routine rate increases when it is important to compare not only the price but also coverage and exclusions among carriers. In this easy to read and comprehensive new book you will learn hundreds of ways to secure and or reduce your health, automobile, life, and home insurance costs. For example, did you know that installing a theft tracking device in your car can save you up to 35% on your auto insurance and that your credit history can dramatically affect your auto insurance premium. Recent studies have shown that more than 90% of insurers use credit information to create an "insurance risk score", which they then use as a factor to determine your insurance rate. Add a simple home security system to monitor your home, and your insurance rates may be discounted up to 30%, depending upon where you live. Your insurance could end up costing you more if you choose to make monthly payments rather than pay the entire premium annually. Notify your agent if you retire, your children go to school, or you start working from home (when you are not travelling as much your rates will go down). Have you stopped smoking? Lost weight? Started exercising? All of these efforts can have a dramatic effect on your insurance rates. Insurance topics covered in this book are How Insurance Works, Insurance Company Rating, National and Local Firms, Auto, Health, and Disability Insurance, along with work sheets and forms to assist you in your search for the best coverage at the lowest price.

"Beaten But Not Broken" is an account of life of a black family from the eyes of the author, Calvin Coker and deals with the racial inequality and bigotry that most blacks faced in the south during those years of the 60s and 70s. It introduces a level of poverty that a large number of black Americans experienced and many today can relate to. Many white Americans may ask today, when will it ever be over, but for many blacks, the answer to that question is never, there will always be a struggle for us (us being all Americans). Beaten but Not Broken YAHWEH Jireh (The Lord provides), is a story that is full of life's ups and downs. From reading it, you will see that racism is not just an attitude shared from whites to blacks and that life is full of other types of circumstances that can bring you down. However, there is one and only one God who reaches down to the lowest valley and will rescue people, no matter who you are. It is a story of a human spirit being beaten on several occasions, but something inside placed from above, saying "hold on just a little while longer, your change is coming". This is the testimony of the author, beaten or whipped at times, but finding the promised victory in Christ always in time.

Insurance can be confusing and expensive, but it's also necessary protection from risk. To alleviate that confusion, Tony Steuer has created a comprehensive guide to insurance—from how to calculate your ideal level of coverage to avoiding fraud—using the familiar metaphor of professional football. stockholders more than to serve you. When you use our suggestions and start saving premium every year, you can build your Wealth Reserve™. This fund can help you save even more by using the strategy most businesses use to save on insurance. They self-insure some of their risks and save big. Most businesses pay less for their insurance needs by using their own interest-earning accounts to pay for small losses, if they occur. You can do the same with your Wealth Reserve™. You build your Reserves, not your insurers' reserves. Like most businesses, you can develop your own "lifestyle" security. Instead of paying for insurance you don't need, you tailor it to your way of living. For instance, you probably pay for a death benefit in your car insurance policy. If you already own low-cost term, you don't need to pay the high rates from your auto carrier. Considering life insurance, many people overpay for life because they did not shop around when they were told they needed it. You may not even need it. You probably used an agent from a name-brand company. You did not know that the cost of the same coverage can vary by over 300%.
